CLEENOL GROUP LTD

PRODUCT USE GUIDE FOR

THICK BLEACH

Product Description

A high active thick bleach with added viscosity, allowing the bleach to cling to the surface for longer, providing more effective cleaning.

Product Features

- A powerful disinfectant which, by its viscous nature, ensures prolonged contact of the product with the surfaces to which it is applied.
- The product deodorises and disinfects in one operation.
- It may be used to control the growth of algae, bacteria and viruses in the food, dairy and brewery industry, and is ideal for use in toilets, drains, sinks, washrooms and refuse areas.
- It is suitable for use on most hard surfaces at normal use solutions.
- Care should be taken as the product is corrosive to the majority of metals and will bleach fabrics.

Directions for Use

- Remove cap.
- Direct the nozzle under the rim of the lavatory / area to be cleaned, pointing away from face.

Shelf Life

- It is recommended that this product is used within 3 to 5 months of purchase in the UK climate and within 2 months in warmer climates. Do not allow to freeze.

Environmental Hazards

- Neat product will cause damage to plant and animal life.
- Do not allow large quantities of neat product to enter surface waterways as serious ecological damage may be caused.
- In the event of a large spillage, contact the local water authority or Environment Agency immediately.

Packaging

750ml 5 litres

Code Nos.

062399	5L
