

PRODUCT USE GUIDE FOR LIFT DESCALER & SANITIZER K30

Product Description

A powerful foaming product designed for the safe and quick removal of limescale deposits. Effective against Legionella bacteria which is often harboured within the lime. Will descale and sanitize showerheads, plumbing fittings and sanitary ware. May also be used as a general surface descaler, e.g. on shower cubicles made from glass or acrylic plastic, wash basins and toilets, ceramics, taps, bathtubs and showers, chrome, ceramic floor and wall tiles.

Product Features

- Will descale and sanitize showerheads, plumbing fittings and sanitary ware in one operation.
- Effective against Legionella Pneumophila when used neat with a 5 minute contact time.

Direction for Use

- Turn nozzle to on position.
- Keeping bottle upright, spray liberally onto dismantled shower heads, reapplying if necessary.
- Leave until all white deposits are removed and rinse thoroughly with clean water. Re-apply and leave for 5 minutes.
- **Usage areas** – safe for use on stainless steel, chrome, ceramics. Avoid using on damaged surfaces, acid sensitive surfaces, marble, limestone and other natural stones, enamel, aluminium, galvanised metal, copper, brass, textiles and ferrous metals.

Shelf Life

- It is recommended that this product is used within 24 months of purchase in the UK climate and within 6 months in warmer climates, although its colour and appearance may alter within this period in hot climates. Do not allow to freeze.

Environmental Hazards

- Neat product will cause damage to plant and animal life.
- Do not allow neat product to enter surface waterways as serious ecological damage may be caused.
- In the event of a large spillage, contact the local water authority or Environment Agency immediately.
