Product information

MODAFLAME 60% Modacrylic, 39% Cotton, 1% carbon fibre. The fibres used in this fabric include 60% Modacrylic, an inherently flame retardant fibre that does not combust, the fibres are difficult to ignite and will self-extinguish, providing natural flame retardancy without the need for an FR chemical treatment in the textile process. These fibres are blended with 39% cotton for strength and the fabric is inherently antistatic by also incorporating 1% carbon fibre for protection against electrostatic discharge hazards. The fabric has a fluorocarbon finish providing oil and water repellency and helps to protect against stains.

ANTI-STATIC
MODAFLAME™
FLAME RESISTANT

Modaflame™

Constructed from 60% Modacrylic, 39% Cotton and 1% Carbon Fibre, 280g. Modaflame provides inherent flame resistance and anti static protection. The high tensile strength of this fabric offers durability while the cotton content provides lasting comfort.

Modaflame®

Modaflame™ is an inherently permanent flame resistant fabric. This special blend combines 60% modacrylic fibre with 39% cotton and 1% carbon fibre. Modaflame is extremely comfortable, hardwearing and offers full anti static protection.
