Araflame™ Hi Vis Multi

Araflame Hi Vis Multi is a ground breaking innovation in flame resistant fabric. Constructed using 57% aramid, 42% polyester and 1% carbon fibre, Araflame Hi Vis Multi offers the ultimate in inherent flame resistant protection combined with high visibility. This state of the art fabric offers full protection against a multiple of hazards.

Araflame™

This fabric is constructed from 93% Meta-aramid and blended with 5% Para-aramid for strength. The fabric is inherently antistatic by also incorporating 2% Carbon Fibre. The Meta-aramid is an inherently flame resistant fibre that does not melt, drip or continue to burn, providing natural flame resistance. Para-aramid has excellent tear and tensile strength properties which give strength and durability to the fabric.
