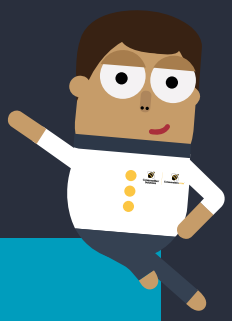
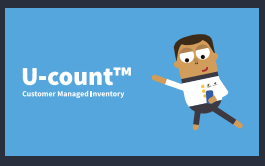
Case Study

apetito

WILTSHIRE FARM FOODS EST. 1991





apetito | Wiltshire Farm Foods

apetito Limited is an award winning, global organisation providing frozen food and catering solutions to care homes, local authorities and hospitals. In addition they provide a frozen meal delivery service to the public via their franchise Wiltshire Farm Foods.

The company is part of a German owned, multinational business and there are around 1,200 employees in the UK.

REDUCING DOWN TIME

LINE REPLENISHMENT AT POINT OF USE

STEP 1

The Requirements

With various suppliers for different workplace supplies, there was no central visibility or control. So they recognised they needed a managed, on-site service for their workplace supplies. The business had a requirement to reduce downtime and optimised inventory.

Our Solution

Following a tender process, apetito chose the One-team™ solution in 2000.

Since then we've provided a fully managed on-site store - with a store manager (recruited and employed by us) who works in our store on their site to ensure supplies are available where and when they're needed. The store is completely integrated with our U-control™ system so the central team has full online visibility and control of orders.

STEP 2

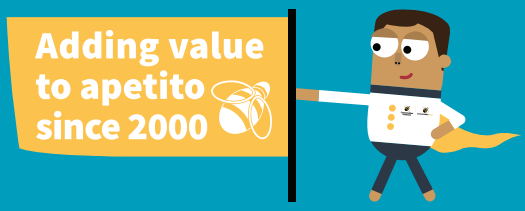
STEP 3

The Result

apetito now has immediate access to the stock they need with a one-stop on-site solution for all their workplace supplies. The stock is fully managed and someone is available at their site to deal with any requests as they arise. We also check and replenish supplies at the point of use each day.

With U-control™, all stock-ordering is integrated so the central team has full visibility of what is being spent and where.

Consumables Solutions has been on-site with apetito for over 20 years now.



"Consumables Solutions has speed and availability. They are unique in that they are able to provide friendly staff to work on your site who constantly find solutions. Their employees are approachable and willing to listen to your requirements. Being able to see exactly what you can order and when through U-control™ is rare when it comes to suppliers."
